SUMMARY

Technical Business Analyst with 15+ years of experience spanning Front-Office Trade Support, Asset Management, and Investment Reporting at global institutions (HSBC, Citigroup, LGIM). Extensive experience working with derivatives, fixed income and equity products, investment reporting, stakeholder engagement, requirements gathering and business-critical data solutions. Combines strong financial markets knowledge with modern technical skills including Python, SQL, data analysis, reporting automation and business systems support.

CORE COMPETENCIES

Data Analytics & BI: Python (Pandas/NumPy), SQL, PostgreSQL, Data Validation, Financial Reporting.

Software & API Engineering: Django, JavaScript, Stripe/Rest APIs.

Methodologies & DevTools: Agile/Scrum, Jira, Git/GitHub, Pytest.

Business Analysis & Governance: Requirements Gathering, Trade Lifecycle, Stakeholder Management, Quality Assurance & Testing.

PROFESSIONAL EXPERIENCE

Data Visualization & Technical Consulting (Freelance)

2015 - 2023

- Technical Consultant (Self-Employed) Jan 2020 - Sep 2023
 - Partnered with clients to scope project requirements, map execution timelines, and manage delivery expectations.
 - Engineered responsive data architectures and user interfaces to optimise data accessibility and system performance.
- Data Visualization Specialist (Freelance) Jan 2015 - Dec 2019
 - Analysed complex financial datasets to build high-fidelity data visualizations and interactive pitchbooks for executive stakeholders including Euromoney Trading.

Asset Management & Investment Reporting (Contract)

2008 - 2019

- Institutions: Legal & General Investment Management (LGIM), Columbia Threadneedle, Lehman Brothers.
- Delivered high-value investment reporting, market research, and data analytics solutions via long-term agency contracts.
- Acted as a core business analyst liaison between front-office stakeholders, portfolio managers, and technical architecture teams to translate business logic into scalable data solutions.
- Produced and verified critical monthly and quarterly data assets, ensuring absolute data quality and strict regulatory compliance across complex financial products.

Front Office (Contract)

2004 - 2008

- Applied deep front-to-back trade lifecycle knowledge across derivatives, fixed income and equity products within investment banking and asset management environments for global banks including HSBC and Citigroup.
- Acted as primary liaison for front-office stakeholders (traders, PMs, research teams) mapped complex workflows, gathered requirements, and delivered data analysis to optimise business-critical trade processes.
- Supported settlement workflows, reconciliations and trade lifecycle processes across investment banking and asset management operations, ensuring data accuracy and operational control.
- Supported investment reporting and recommendation processes across derivatives, fixed income, and equity products, ensuring timely delivery of portfolio and client reporting outputs.

KEY TECHNICAL & DATA PROJECTS

PyVisuals | Financial Analytics & Reporting Pipeline (Rapid Deployment) | [GitHub](#) | [Live Demo](#)

Apr 2026

Tech Stack: Python, Matplotlib, Seaborn, Pandas, Bootstrap 5, Git and VS Code.

- Built Python-based reporting pipelines to automate analysis of complex financial datasets and deliver stakeholder-ready data visualisations.

Auraic | Transaction & Payment Integration Engine (End-to-End Deployment) | [GitHub](#) | [Live Demo](#) *Mar 2026*
Tech Stack: Python, Django, Stripe API, PostgreSQL, Bootstrap 5, jQuery, Git, Heroku and VS Code.

- Delivered a secure, full-stack transaction engine featuring robust Stripe API integration to enable seamless, end-to-end payment workflows.
- Implemented user authentication, product catalogues, and checkout processing architectures with a strict focus on data integrity and GDPR security compliance.

Planora | Resource Allocation & Scheduling System (Agile Deployed) | [GitHub](#) | [Live Demo](#) *Dec 2025*
Tech Stack: Python, Django, Bootstrap 5, Heroku, Git and VS Code.

- Designed Django relational database models and resource workflows to support real-time data consistency using Agile development practices.
- Improved data accuracy by implementing validation and automated scheduling logic.
- Gathered requirements and translated user needs into functional application features.

EDUCATION & CERTIFICATES

Level 5 Diploma in Web Application Development | Remote/Part-time *Completed Mar 2026*
Code Institute (City of Bristol College) Diploma focused on **data-centric full-stack frameworks**.
Overall Grade: **Merit**.

Google AI Essentials Course - Dec 2025
Microsoft Excel Associate (Microsoft 365) - Result: 940/1000, 2024
Level 2 Certificate in Data Analysis - Result: Pass, 2024
Level 2 Certificate in Digital Marketing - Result: Pass, 2023

CLIENT PROJECTS

Business Systems Analyst (Volunteer) - SEDS Connective *Dec 2025 - Mar 2026*

- **Led the end-to-end optimisation** of the organisation's digital platform, analysing user workflows to dramatically improve system usability, data consistency, and user experience.
- **Gathered stakeholder requirements** and translated complex operational needs into four distinct high-fidelity wireframe blueprints and functional specifications to drive consensus.

Systems & UI/UX Analyst (Volunteer) - thisisthegeneration.com *Oct - Nov 2025*

- **Conducted business process analysis** to overhaul system architecture, improving information design, data readability, and stakeholder engagement metrics.
- **Managed cross-functional requirements** for responsive component deployment, ensuring strict cross-browser technical compatibility and system alignment.
