## SUMMARY

---

Senior Trading & Investment Operations Specialist with 15+ years of financial domain experience across premier global institutions (HSBC, Citigroup, LGIM). Proven expertise in managing trade support, settlements, investment reporting, and cross-functional operations. Combines deep knowledge of front-to-back trade lifecycles, clearing, and exception handling with advanced technical capabilities in Python, SQL, and data automation. Available for temp, contract or remote roles.

## CORE SKILLS

---

- **Settlements & Operations:** Trade Confirmation, Clearing & Settlement, Fail Management, Exception Resolution, Front-to-Back Trade Lifecycles, Reconciliations.
- **Reporting & Client Operations:** Investment Reporting, Performance & Portfolio Data, Marketing/Client Operations Support, Stakeholder Management.
- **Data & Technical Tools:** SQL (PostgreSQL query/reconciliation), Python (Pandas/NumPy for automated reporting), Advanced MS Excel (940/1000 certified), REST APIs.
- **Process Improvement:** Workflow Optimisation, Production Triage, Agile/Scrum, Business Process Analysis.

## PROFESSIONAL FINANCIAL EXPERIENCE

---

Technical Systems Analyst | SEDS Connective | Dec 2025 – Mar 2026

- Led the end-to-end optimisation of a digital platform rollout, translating operational user needs into structured technical specs and high-fidelity wireframe blueprints.

Systems & Data Presentation Analyst | thisisthegeneration.com | Oct – Nov 2025

- Conducted deep-dive business process analysis to overhaul reporting system architecture, testing and tracking deliverables to ensure absolute system compatibility and data transparency.

Technical Consultant (Self-Employed) | Jan 2020 - Sep 2023

- Partnered with clients to scope project requirements, map execution timelines, and manage delivery expectations.
- Designed and implemented automated data intake models and reporting frameworks, improving operational workflow efficiency for clients.

Data Visualisation Specialist (Freelance) | Jan 2015 - Dec 2019

- Analysed complex financial datasets to build high-fidelity data visualisations and interactive pitchbooks for executive stakeholders including Euromoney Trading.

Asset Management & Investment Reporting (Contract) | 2008 – 2019

*Institutions: Legal & General Investment Management (LGIM), Columbia Threadneedle, Lehman Brothers*

- **Data Quality & Reporting Controls:** Generated, reconciled, and validated critical monthly/quarterly data assets across complex asset classes, maintaining strict audit trails and regulatory compliance.
- **Operational Exception Management:** Monitored upstream and downstream operational workflows, performing root-cause analysis on data discrepancies and trade breaks to safeguard portfolio data integrity.
- **Business Analysis & Desk Support:** Acted as the core operational liaison between front-office users (Portfolio Managers, Traders) and technical architecture teams, translating complex business logic into automated reporting solutions.
- **Workflow Optimisation:** Leveraged SQL, advanced Excel, and automated scripts to streamline manual data aggregation, significantly cutting down report generation cycles and eliminating manual processing errors.

## Trade Support & Front-Office Market Operations (Contract) | 2004 – 2008

*Institutions: HSBC, Citigroup*

- **Trade Lifecycle & Settlement Execution:** Managed post-trade confirmation, trade matching, and settlement processing for fixed income, equities, and derivatives across fast-paced investment banking desks.
- **Fail Management & Reconciliations:** Identified, investigated, and resolved trade breaks and settlement fails, liaising directly with custodians, counterparties, and clearing houses to minimise operational risk.
- **Front-Office Support:** Served as the dedicated operational contact for trading desks, mapping trade execution workflows, gathering functional requirements, and clearing system bottlenecks.
- **Reconciliation & Control Systems:** Executed daily front-to-back position and cash reconciliations, ensuring high-fidelity data across internal trading systems, market data feeds, and downstream settlement platforms.

## AUTOMATION & DATA PROTOTYPES

---

- **Financial Data & Visualisation Pipeline (PyVisuals):** Engineered Python (Pandas) data pipelines to ingest, clean, and process heavy financial datasets, eliminating manual spreadsheet errors and transforming portfolio anomalies into actionable reports.
- **Transaction & Payment Engine (Auraic):** Built a transactional database application in Python/PostgreSQL using strict data validation layers, REST APIs (Stripe), and relational schemas to ensure zero-latency data transmission.
- **Resource & Scheduling Automation (Planora):** Designed database models and batch-scheduling workflows under Agile frameworks to ensure data consistency and optimise delivery latency.

## EDUCATION & CERTIFICATES

---

**Level 5 Diploma in Web Application Development | Remote/Part-time | Completed Mar 2026**

Code Institute (City of Bristol College) Diploma focused on data-centric full-stack frameworks and Agile.

Overall Grade: **Merit**.

**Google AI Essentials Course**, Dec 2025

**Microsoft Excel Associate (Microsoft 365)** - Result: 940/1000, 2024

**Level 2 Certificate in Data Analysis** - Result: Pass, 2024

**Level 2 Certificate in Digital Marketing** - Result: Pass, 2023
